

TECHNICAL DATA SHEET - TECHSPAN ROD TEST KIT

- The Techspan 'Rod Test Kit' contains over 40 Techspan Plastic Welding rods for identification and test welding.
- Manufactured from premium virgin thermoplastic resins.
- Specially selected for weldability & compatibility with a wide range of plastics.
- UV stabilized where applicable.
- No reprocessed materials.

The Rod Test Kit contains the following plastic welding rods, each approximately 300mm long x 3mm diameter. These rods are extruded in short runs and do not necessarily represent production quality.
